

You can also
make your own zine
(we have a template &
they're pretty easy to find
with a google) and submit
it for listing in our
publishing house. Then
any newsie who would
like can purchase &
distribute your zine.
We charge a flat one time
listing fee of \$10.
You keep the
sales of your
zine!

with host
ours have 50%
of fees, but you
get the rest!

Distribution

- ① Print the ones you want to distribute (as many as feels reasonable)
- ② Fold 'em up & staple them together (or sew)
(you can also cut the connected pages if you want to)
- ③ Give them out or sell them! (we recommend \$2-\$5 per copy)
- Good spots to go -
Public Transport
Places People Wait
Your school or college

How it Works

- * We have a growing collection of informational zines
- * All of them are designed to print on one sheet of paper then fold into 14 pages
- * You pick the ones you want, download the originals, print them, fold them, & give them out or sell 'em.

But Why?

We need alternatives

The situation is bad when the owning class has media monopolies → The working class needs their own

retake media! How to: Educate, Inform, Organize, Inspire, & Distribute

Tips & Start

- Low & Slow (to Start) -
Print like 5 copies of the ones you want to share to begin with, don't overcommit
- ~ Quality > Quantity ~
You want return customers, people who are invested in the ideas, voices & medium. Really helps if they can read it easily lol
- ~ Experiment making Your Own! ~
It's fun, and if you don't take it too serious you may learn something burning out...

Based on What?

Old Style Newsies! except...

You Control the Printing Press!

Print & Distribute the issues you feel like!

You can find Originals on decolonizationcoven.com or design your own!

Hi! You can be more active in your community. If you make your own Sub, you can let the people pass it out. We for sure need more than just me doing this, & you could make some passive income. decolonizationcover.com

Get Creative!

& don't be mean to yourself as you experiment (if you are going to make your own)

Printers can Suck

Test prints are your friend, doesn't have to be perfect, just foldable (beverage the margins tho)

Use Eco Mode 13 to save on ink!

What is a News Zine?

Someone who re-prints and distributes zines of their own making or from a publishing house like the one we started on decolonizationcover.com (Shameless plug) 1 to give people a

Don't Let Them

The systems that control us are also organized and maintained through us. We can make new ones! We just have to put imagination + labor toward it instead of back into what there is. 10

different source for information than the usual corporatized outlets. **Who can we go to?** Especially if you... want a side hustle. Are Sick of Corporate Media. Are interested in community building. Want to put the Worker in charge of the narrative. 2

Who can we go to?

Keep getting manipulated by the rich people who want to keep us uninformed, afraid, angry at each other & isolated.

They want to deny us the skills & knowledge to organize ourselves as alternative to the profit driven information (if other) structures 9 in the US of A

5 ways you can do so:
★ We can subvert the rage baiting & reduction of social media & mainstream outrage media
★ We can strengthen existing info networks & build new ones
★ Artists, educators, organizers can get their work out to a larger audience & be compensated for their labor
★ Anyone who would like to support themselves while spreading worker information has an accessible way to do so

What You Need to get started

- Printer Access (You can make one with any old one) Bonus: prints if you use your work or school printer w/o paying
- Scissors (to make the cut to fill it)
- Stapler (to bind)
- Some Zine Original (design your own or use ours)
- The Willpower to tinker with printer alignment
- A guide on how to fold them + make your own originals (if you want to)
