BEYOND BORDERS

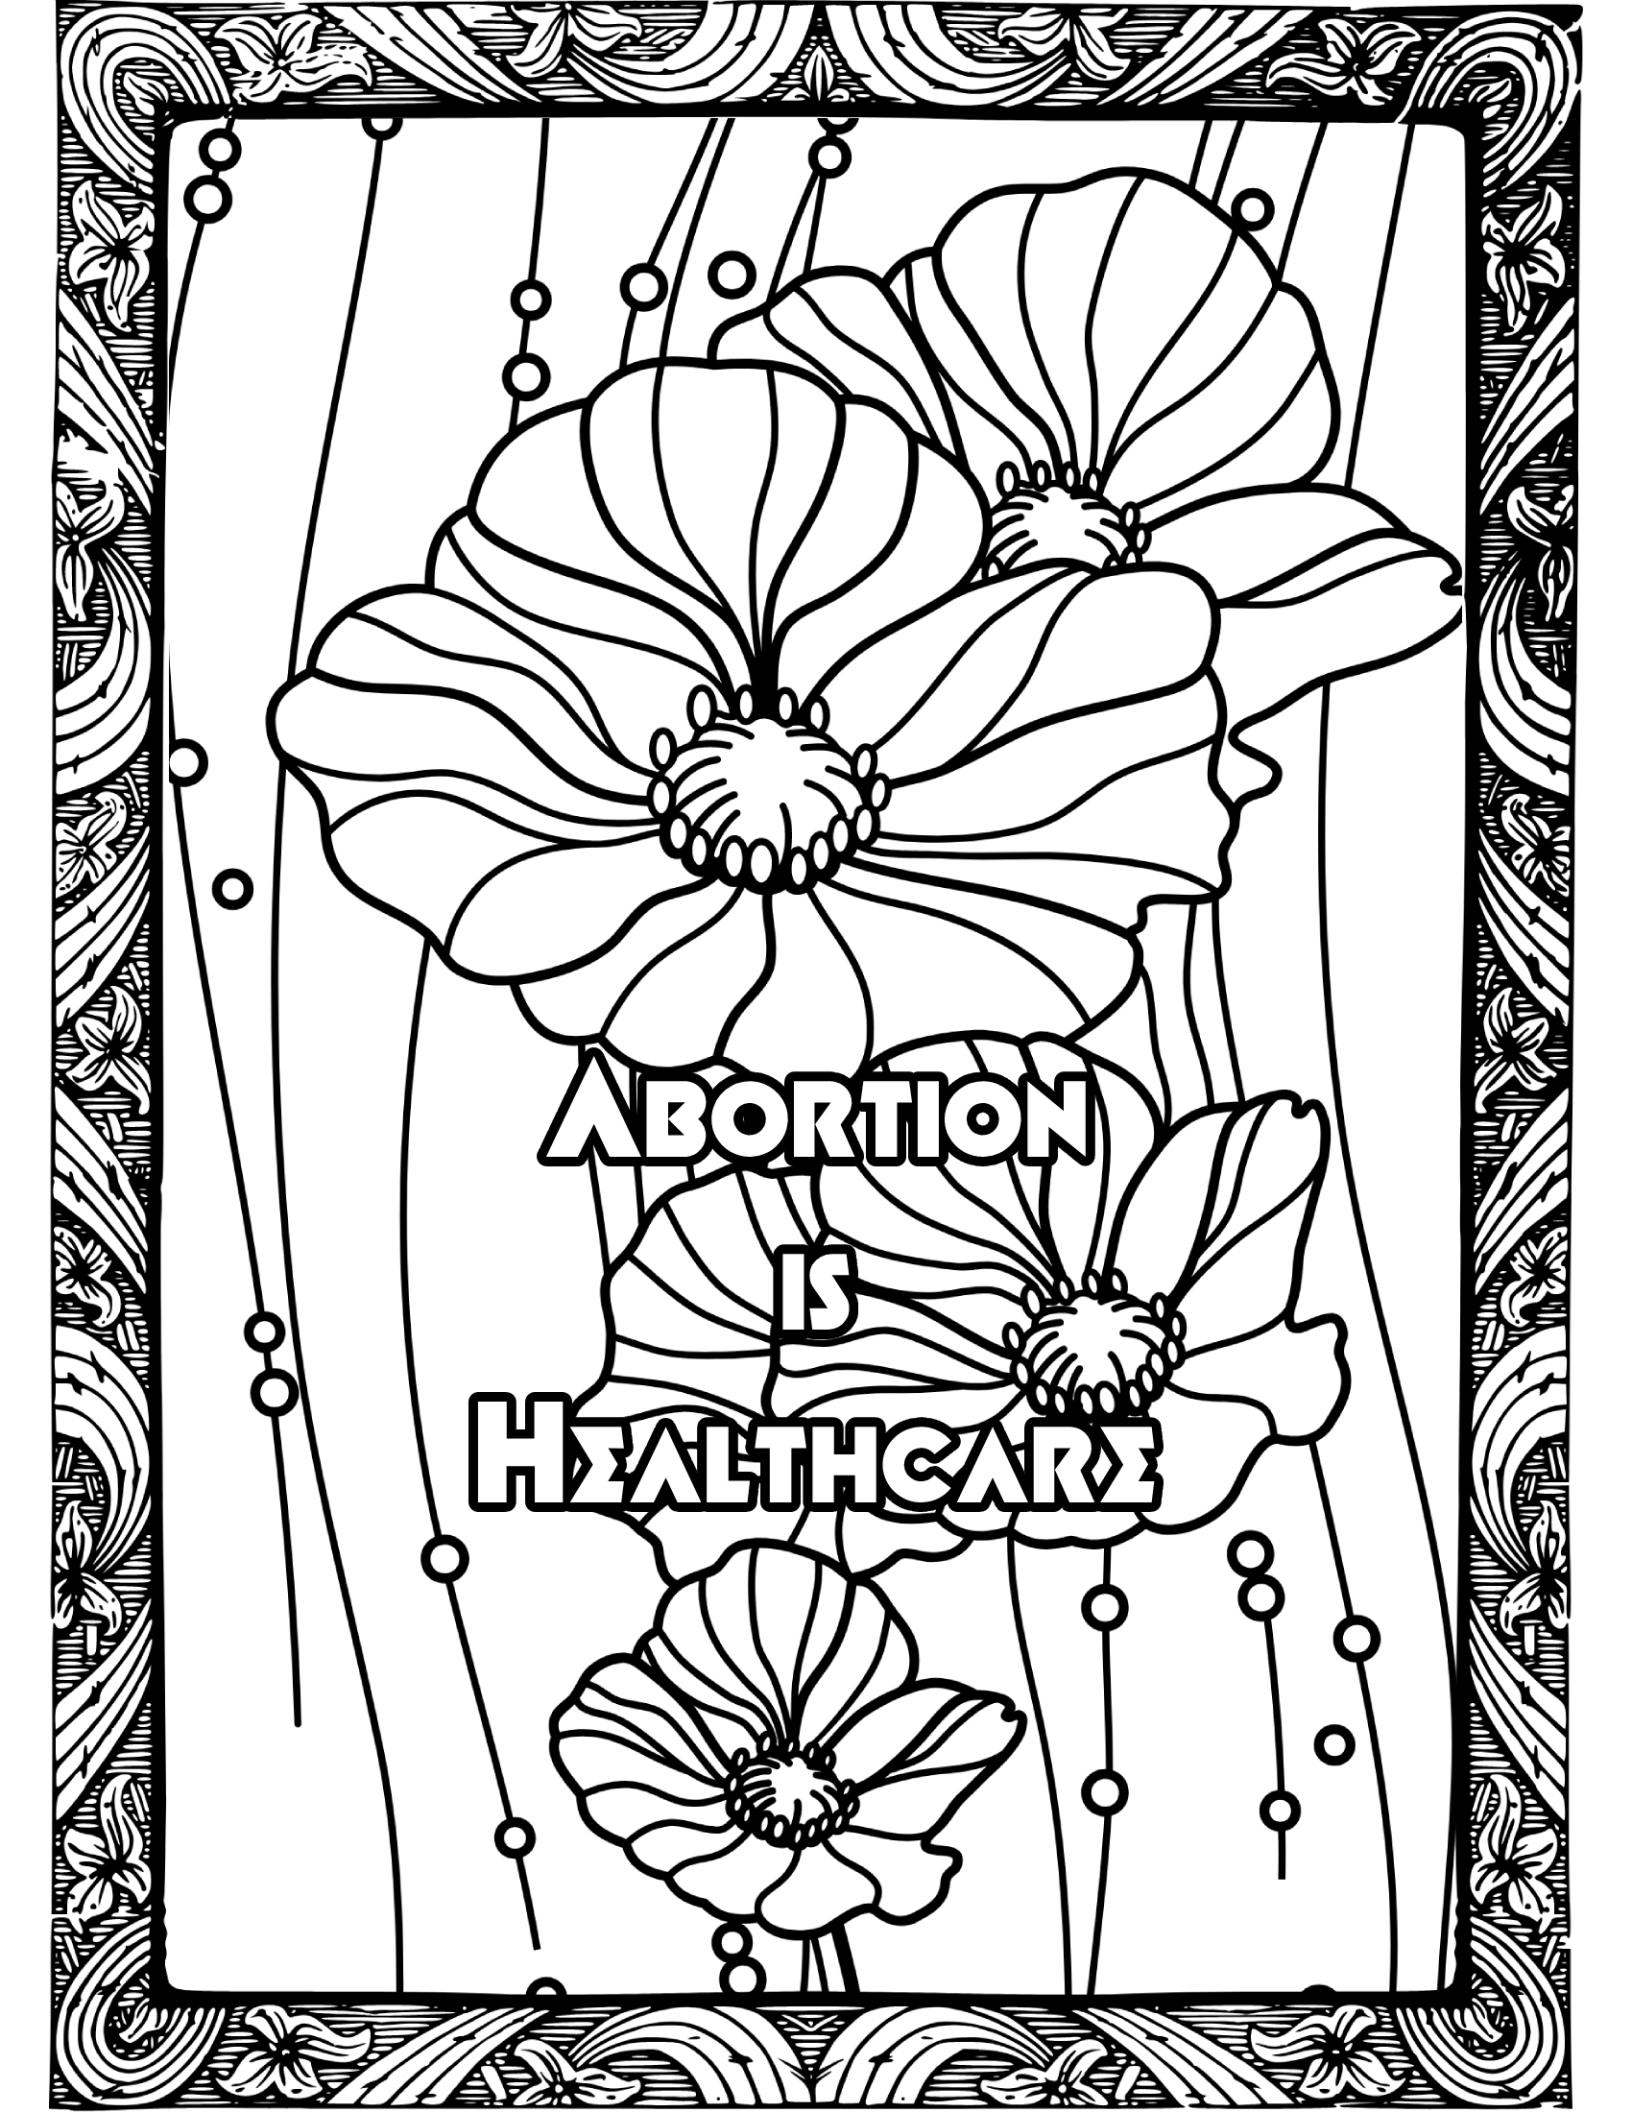

Mutual aid, prisoner support, tenant organizing, labör unions, community childcare, anti-fash research, DIY recycling/repair, not talking to cops, transformative justice, narcan distribution, street medics, legal support and a lot more stuff that's not just having guns

Wait, it's all community defense?

Always has been.

From Wikipedia: Civilian-based defense or social defense describes non-military action by a society or social group, particularly in a context of a sustained campaign against outside attack or dictatorial rule – or preparations for such a campaign in the event of external attack or usurpation.

# LIFE'S TOO LONG FOR BAD SHOES

Be Prepared! When it's time to take to the streets wear your most comfortable shoes. Wear nondescript, solid, layered clothing (black if possible). It is more difficult for an individual to be identified if uniform clothing is used among a group. Cover tattoos. Secure your hair back. Emergency contacts written discreetly on your body. Have goggles, mask, and heat resistant gloves. Bring water, snacks, cash & ID, bandages & first aid supplies, & earplugs!

Don't wear contact lenses or jewlery. Don't bring anything you don't want to be arrested with. Best to leave your phone at home, but if you must bring it - turn off Face/Touch ID, put in airplane mode & disable data.

When you stream, film or photograph, you are creating evidence. Do not document unless you are prepared to sufficiently anonymize and scrub data.

WE KEEP US SAFE.
