

How to Report

I WANT TO HELP KEEP MY IMMIGRANT NEIGHBORS SAFE — WHAT CAN I DO?

- Report ICE sightings and activities to trusted organizations. Do this in the Twin Cities Metro Area by calling the Monarca Rapid Response hotline. This helps alert vulnerable immigrants so they can avoid interactions with ICE.
- Use the SALUTE protocol (pages 3–4) to collect key details. This ensures that reports are clear, specific, and verifiable by community organizers.
- Be accurate and cautious. Avoid spreading fear by mistaking police or other city agencies for ICE. DO NOT post unverified sightings on social media.

IF YOU WITNESS SOMEONE BEING DETAINED BY ICE

If possible, politely ask the detained person for their

Full name and date of birth

Ask if there's a loved one you can contact. This can help notify family and provide emotional and legal support.

Write everything down.

Record the information clearly and accurately. This information is important for immigration lawyers and support organizations to locate and assist the person in custody. Do your best.

SOME OTHER THINGS TO KEEP IN MIND:

- Don't discuss activism while observing, photographing, or recording ICE.
- Don't post photos or videos on social media that show the faces of people being detained.

As part of our goal to keep our neighbors safe, we want to make ICE and the people who work for ICE feel uncomfortable and to send a clear message that they are not welcome in our communities. Observing, photographing, and recording them is a powerful way to show resistance. The more visible and unwelcome their presence becomes, the less desirable it will be to work for ICE — making it harder for them to carry out arrests.
